Professional Summary

Passionate and driven cybersecurity professional with a focus on Security Operations (SOC) and Incident Response. Experienced in system security enhancement, reducing vulnerabilities, and safeguarding critical infrastructure. With expertise in Active Directory, network traffic analysis, and SOC operations, I bring a proactive and analytical approach to threat detection and response. Currently seeking to leverage my skills and experience in SOC roles to make a meaningful contribution to cybersecurity defense.

Education

Faculty of Computer And Information, Al Minya, Egypt

Professional Experience

- - Managed security incidents and provided recommendations to strengthen security.
- Contributed to network monitoring and threat detection as part of a SOC team.
- ACM MU Instructor of Cybersecurity Committee (October 2024)
- Completed a capstone project involving a comprehensive TryHackMe pathway, earning the certificate.

Skills

- - Incident Handling: Skilled in managing and responding to cybersecurity incidents.
- Active Directory: Proficient in administering and securing AD environments.
- SOC Operations: Practical experience in monitoring, detecting, and responding to cyber threats.
- Threat Detection: Adept at identifying vulnerabilities and preventing attacks.
- Vulnerability Assessment: Experience in evaluating systems for potential security risks.
- Penetration Testing: Trained in identifying and exploiting system weaknesses.
- Networking: Certified in Cisco CCNA, strong understanding of network security.
- Linux: Proficient in Linux-based systems for security and administration tasks.
- Team Collaboration: Strong ability to work in diverse teams to achieve shared goals.
- Communication: Effective verbal and written communication skills.
- Problem Solving: Analytical thinking and proactive approach to troubleshooting.
- Time Management: Skilled in managing tasks and meeting deadlines efficiently.

Certifications

- - Certified Incident Responder (eCIR), Netriders Academy – 2024
- Cisco Certified Network Associate (CCNA) – 2023
- CompTIA Security+ – 2023
- Penetration Testing Student (PTS), eLearnSecurity – 2023
- Linux+ – 2023
- Jr penetration tester (tryhackme) -2024

Languages

- - Arabic: Native language
- English: B2 (Intermediate)
